

2010 ITS Minnesota
Undergraduate Student Scholarship Competition
(Application at the end of this document)

Applications Due: February 5, 2010

ITS Minnesota, a state chapter of ITS America since 1995, is proud to announce up to **two undergraduate scholarships of \$750** per scholarship. The competition is open to undergraduate students in Minnesota, North Dakota, South Dakota, and Iowa who have an interest in intelligent transportation systems and transportation engineering.

The purpose of the undergraduate student scholarship is to reward exceptional students interested in the transportation industry and intelligent transportation systems.

Intelligent Transportation Systems, or ITS, encompass a broad range of wireless and wire-line communications-based information, control and electronics technologies. When integrated into the transportation system infrastructure, and in vehicles themselves, these technologies help monitor and manage traffic flow, reduce congestion, provide alternate routes to travelers, enhance productivity, and save lives, time and money.

Applications will be evaluated on the following criteria.

- 1.) Academic Achievement
- 2.) Work Experience/Volunteer Work
- 3.) Student Activities
- 4.) Interest in/understanding of ITS
- 5.) Career Goals and Objectives

A committee designated by the ITS Minnesota Board of Directors will select scholarship recipients. Recipients will be recognized at the University of Minnesota ITSO Student Paper Conference Awards Luncheon on March 3, 2010. Scholarships will be presented at the ITS Minnesota Annual Meeting on March 9, 2010 (see www.itsmn.org for details). ITS Minnesota will provide complimentary registration for recipients to attend the ITS Minnesota Annual Meeting.

Submit application via email to Shawn Haag at haag0025@umn.edu. **Applications are due on February 5, 2010.**

2010 ITS Minnesota
Undergraduate Student Scholarship Competition
Application Form

Name: _____

Telephone Number: _____

Mailing Address:

E-mail Address: _____

Expected Graduation Date: _____

Major: _____

Minor (if any): _____

1. Academic Achievements (Projects you have completed, course work, honors, etc.)

2. Student Activities (Organizations and Clubs, especially engineering related such as ITSO, ASCE, SWE, etc)

3. Other Comments (work experience, Volunteer Work, Awards, etc.)

4. Why do you feel the utilization of ITS/advanced technology in transportation is important in helping to solve transportation problems and improve safety? Please limit your response to one page, single spaced.

5. What are your career goals and objectives and how are you preparing to meet those goals and objectives? Please limit your response to one page, single spaced.
